

# EPC Company UAB SOLET

Harnessing the power of solar energy since 2011, we bring our expertise to global projects spanning Europe, Asia and Africa.

## Engineering

From the blank canvas

## Implementation

to a working solution

## Service

& 24/7 maintenance

## We are Solet

Embarking on solar energy initiatives across numerous countries, our company is at the forefront of sustainable projects worldwide. With all resources conveniently consolidated under one roof, we seamlessly integrate expertise, innovation, and efficiency to drive the future of solar energy solutions.

Our commitment extends beyond borders, illuminating a greener path for a sustainable tomorrow.

## We are proud of

>50MW

>2000

>60

>10M

Empowering a greener tomorrow, we've installed over 50MW of solar plants for 2000+ customers across diverse markets since 2011. Our global team of 60 individuals is committed to sustainable solutions, driving an annual revenue exceeding 10 million euro per group.

Our group experiences annual growth, rising steadily year after year.

I take pride in the brilliance of Solet company, where exceptional project management seamlessly converges with expertise spanning engineering, implementation, finance, and service for solar power plants. We don't just envision a sustainable future; we meticulously build it, step by step.

Andrius Karazinas, Chief Executive Officer

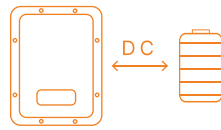

# Our Turnkey Solutions

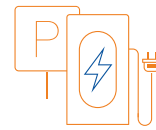

Solar Plants

Solar Farms

Battery solutions

EV Charging

Maintenance

## Let's Cooperate?

Elevate your energy landscape with our comprehensive solutions. We design and smoothly integrate solar plants, batteries, and EV charging systems, ensuring optimal performance. With our round-the-clock maintenance service, we guarantee a sustainable and efficient energy solution tailored to your needs.

We boast expertise in the markets of Lithuania, Denmark, Finland, Sakartvelo, Moldova, and Uzbekistan. **Excited and ready to embrace new challenges ahead!**

## Process

### 1st step

#### Contact us

Reach out to us to discuss your requirements and share the specifics of your project.

### 2nd step

#### Meet&Proposal

We'll schedule a meeting to delve deeper into your needs. Following that, we'll provide a comprehensive proposal tailored to your requirements.

### 3rd step

#### Agreement&Work

Once the proposal aligns with your vision, we'll finalize the agreement, and our team will begin the collaborative work on your project.

## Our goals for the next 5 years

Let's align our company goals and explore opportunities for collaboration. Share your objectives, and together, let's uncover potential touchpoints to work towards mutual success.

- Executing initiatives for the reconstruction of Ukraine (Solar + battery solutions for governmental sector).
- The development of a >200MW solar farm project with batteries in Lithuania.
- Currently engaged in projects exceeding 3MW in Moldova, Sakartvelo, Uzbekistan, and Ukraine.
- Expanding into e-commerce and retail stores with solar, battery, and mobility solutions.
- Venturing into the energy balancing market in Lithuania.

Understanding the distinctive goals of each company's business development, we are confident that our expertise can make a substantial impact on your renewable energy projects. Reach out to our team and let's begin collaborating on advancing your project.
